

Rising 2nd Grade Summer Packet

Dear Future Saint Ann Second Graders and Families,

Can you believe you are finished with 1st grade? We are so proud of you and excited to have you in 2nd grade for the 2026-2027 school year!

To help keep our future 2nd grade students' math and language arts skills fresh during the summer months, we have created a summer work packet for your child to complete. If your child completes a couple pages each day, it should not take too much time. **This packet should be returned to your 2nd grade teacher on the first day of school and it will be their first math and ELA grade of the year.**

We have also included a 1st and 2nd grade sight word list in the packet. Please check off all the words that your child knows how to read by the end of the summer.

Data shows that students who continue to practice their math and reading skills over the summer, demonstrate better retention and are more prepared for the next grade level.

We will also be emailing a digital copy of the packet. If you happen to lose it, drop it in the pool, or the dog eats it...you can print another copy.

Have a blessed summer,

The Second Grade Teachers
